

What's happening at Nursery!

1st June to 5th June 2015

We hope you all enjoyed a good half term break and we welcome you back to what will be the last half term for many of the children before they go on to start school in their Reception classes in September!!

In their last half term at nursery school we do a lot of work with the children on change and growing up. We talk about all the things they have learnt at nursery school, their new skills, friendships and exciting experiences.

You can help and support your child to get ready for the new challenges of primary school. Here are a few suggestions to support them being 'big enough for big school':

- No more bottles or dummies!
- Children need to walk into nursery school - no more carrying them in or riding in buggies!!
- Let your child carry their own bag, hang up their own coat;
- Teach your child their full name and address, and the name of their next school.

This half term there will be another visit to the Nursery school by the Playhouse theatre. On Thursday 11th June and Tuesday 16th June they will deliver another exciting interactive show for the children called Climb aboard. It is all about change. The children will have the opportunity to develop their communication and language skills, learn how to identify and manage their feelings, and engage in imaginative role play.

Fathers' Day Concerts will take place at Nursery school on

Wednesday 17th June at 10.45am in Cherry Room for Butterflies (Mon-Wed), Ladybirds, Hedgehogs and Squirrels

Friday 19th June at 2.00pm for Caterpillars, Butterflies - Wed- Fri), and Robins in Cherry Room and Rabbits, Woodpeckers and Owls in Oak Room

This week is Child safety week - Why not take a look at the website for lots of information and tips?

<http://www.childsafetyweek.org.uk/parents>

Child Safety Week is run every year by the Child Accident Prevention Trust to help families understand the things that can lead to serious accidents, as well as the simple steps which can help to prevent them.

For instance, did you know that a hot drink can still scald a child 15 minutes after it's been made? Or that the detergent liquid tabs under the kitchen sink can be really appealing to your toddler who might just like to take a bite?
