

Volunteers

You can volunteer to help during our forest school sessions. If you would like to help support the children with their learning please speak to Ms Jackie Fortey or your child's keyworker.

As a volunteer you will be expected to help and support the children during the sessions. This could be helping the children put their waterproofs and wellington boots on and to join in with our fun games and sessions. You will be a support to both the children and a great help to the staff.

We recommend that you wear wellington boots and old warm clothing. We have limited adult waterproofs to loan you during the session..

It is fun and you can share your own expertise or learn something new.

Children learn through play, have the opportunity to learn about the natural environment, how to handle risks and most importantly to use their own initiative to solve problems and co-operate with others.

Forest School programmes run throughout the year and in most weather conditions (except for high winds). Children may use tools, light fires, play, learn boundaries of behaviour, both physical and social, establish and develop a positive approach to new challenges

Through regular sessions children are given opportunities to develop new skills, explore the environment and work both independently and as part of a team. Forest School is challenging, interesting and, most importantly, fun!

Forest School At Featherstone Nursery School

We learn about Fire

Taking risks

Learning Independently

Motivating

Exploring in a safe environment

Respect

British Forest Schools have been developed and adapted from the original concept implemented in Sweden and was developed throughout Scandinavian and European Countries.
