

# **Our Ethos - It takes a whole community to raise a child**

## **What's happening at Nursery School !**

**Monday 13th March to Friday 17th March 2017**

Last week most of the children were involved in the interactive performance of "Roll up, roll up!" by the Playhouse theatre that took place in Nursery. The children responded marvellously to the performance which was set in a circus and was all about being confident to have a go at new things and to realise that we are all special in some way. The performance helped develop the children's language as well as their physical skills and balance. Thank you to all the parents who contributed towards the cost of this learning opportunity. It's not too late to pay £5.00 to help towards payment for this experience.

In the outside area the children have continued to be interested in the woodwork bench and the opportunity to try out some tools and equipment in a safe environment.

The children have shown how mature they can be when using the tools.

They have also been practising and challenging their gross motor skills by climbing and balancing on the equipment in the playground.

Inside the children have been interested in using the Interactive Board in the group room to draw and write. Using the board not only develops their ICT skills but is helping them to practise their mark making. Children need to have the opportunity to make big arm movements that exercise their shoulders. These bigger movements help children to develop the flow and curve needed for fluent writing.

The children have been exploring the Beebots. These simple robots require programming to make them move. The children have to input the directions so that they will move forwards and backwards. The children get really excited when the robots move along and they need to use their problem solving skills to make them move along the corridor without banging in to the wall.

### **REMINDER!**
